Some Issues?

Do we need to deduct TDS on advance payments?

Do we need to Deduct TDS, if there are several contracts from the same person, where each contract taxable value is less than 250000 but in total more than 250000

What if the supplier is issuing the invoice along with some reimbursements on which supplier is not charging GST? Do we need to deduct on Total payments or the taxable supply?

Some Issues?

(Mr. A) supplier is supplying goods and services to Mr. B, throughout the year, now the value of supply has increased to 2,50,000 in the middle of year for which payment has already been done, now TDS need to be deducted on the whole of the supply ?

What will happen if the supplier is not registered and he is supplying goods and service for more than 2,50,000?

What will be TDS amount in case when Credit note or Debit note is issued, but the payment has already been done? Or there are some other discounts by which valuation and payment is different?

Some Issues?

How to identify the amount of TDS as payment includes the tax amount or reimbursements as well?

What will happen in the scenarios where invoice is issued before applicability of TDS provisions but the payment is made after applicability?

Consequences where the place of supply or taxable value in the invoice is wrong and TDS is deducted accordingly.

Your feedback will help us plan and perform better!

THANK YOU!
